SOVEREIGN THEATRE

FRIDAY	TIME	PRESENTER	SYNOPSIS
	10:30	Helical Systems	The GoundScrew Screw Pile Foundations for New Build and Underpinning - Delving into how Groundscrew Screw Pile Foundations are more beneficial, eco-friendly and cost effective for your home with Helical Systems.
	11:00	Eco Energy Environment	Solar PV - Key points in the design and specification in order to maximise your return on investment in your Solar PV system.
	11:30	MJH Architects	Self-building vs Extending: The Good, The Bad and The Ugly - Compare and contrast the pluses and pitfalls of the different routes of self-building and extending.
	12:00	Nudura	Nudura Solid Insulated Wall Technology - Building For The Future - Explore the benefits of building with the Nudura system and learn about the additional product ranges that we have within our CPG brand portfolio.
	13:00	Kensa Heat Pumps	Why choose a Renewable Ground Source Heat Pump? The shift to renewable heating is happening; fossil fuel systems such as gas boilers will no longer be an option for new-build homes from 2025. Making this the time to invest in ground source heating. Join Kensa as we explain ground source heat pump technology, its long-term benefits, and why low-carbon heating is crucial to cutting emissions.
	13:30	CLPM	Who should Project Manage my project? Every project needs project manager, it's a tough job but someone's got to do it. In this presentation, leading self-build Project Management consultancy CLPM will take you through the role of the PM and explore the pros and cons of the different options for managing your build.
	14:00	Marsh Industries	Off-Mains Drainage - How it works, Sewage Treatment, Pumps Stations - Surface Water and Waste Water. Rain Water Harvesting & Q&A.
	14:30	Green Building Store	Windows - Triple glazing, for energy balance, comfort and future proofing. The benefits of these and how to, achieve them and keep costs down.
	15:00	Total Home Environment	Heat Pump Ventilation - Fresh air, heat recovery, instant heating, cooling & hot water, all in one energy efficient system! Do you need the bother of successfully organizing a formal heating system, or are you making your home so airtight and well insulated that the HPV Series could be for you?

SATURDAY	TIME	PRESENTER	SYNOPSIS
	10:30	Classic Water Softeners	Classic Water Softeners - Protecting your new kitchen and bathroom starts by having the best quality water.
	11:00	Frame Technologies	Timber Frame: The Near-Heatless Solution - Frank and Pauline Mace built their ideal home with Frame Technologies without compromising on design. Inspired by the Passive House principle, the 440m ² , five bedroom timber frame home in Herefordshire incorporated latest technology to be extremely thermally efficient, with external U values of 0.10.
	11:30	Unico System	Ventilation - Transform the way you heat, cool and ventilate your home with The Unico System.
	12:00	AC Architects	NSBRC Show's Star Home Case Study: Traditional ICF Home in West Sussex - Learn more about this ICF construction and some pointers when selecting a modern build method to make it an efficient build!
	13:00	Evolved Group	Design & Build - Taking you from initial design, through planning and building regulations to starting on site, taking in all the additional reports and surveys you may need to allow for to get a trouble free build.
	13:30	Nu-Heat	Underfloor heating & heat pumps - Find out more about the benefits, considerations and options available to you when choosing underfloor heating and a heat pump for your home.
	14:00	Chamberlain Doors	Garage Doors, Doors - Find out about the different types of Garage Doors (Operating Mechanism) you can use for your project, including Sectional Doors, Up & Over Doors and many more designs.
14:30	ADM	Mechanical Ventilation System with Heat Recovery - A thoughtful guide from long established independent MVHR specialists into how you may implement an energy efficient.	

SUNDAY	TIME	PRESENTER	SYNOPSIS
	10:00	Metal Solutions	GreenCoat PLX - The product developed specifically for metal roofers.
	11:00	Halcyan Water Conditioners	Water Conditioners - Learn how to save half a tonne of carbon every year, with no effort - by treating your system once, you can save money, energy and your home for over 30 years.
	11:30	AC Architects	The Integrated Design Team - Allan Corfield Architects discusses how to select your design team and when to engage them. An integrated design team is the first step to an efficient and streamlined project - from initial design through completed build!
	12:00	Plumis	Is your home fire safe... and building regulation compliant? Join us to find out how Automist, our award-winning alternative to sprinklers, enables free flowing open plan layouts that meet building regulations. Designed to effectively protect people and property, Automist uses 90% less water than a sprinkler and connects to the normal domestic water supply, making installation quick and easy.
	13:00	BecoWallform	ICF - The Passive solution to Insulate Britain - Wallform construction is a quick and practical route to achieving high levels of energy efficiency, reducing the carbon footprint and raising standards of home comfort for current and future generations of homeowners.
	13:30	Pura [®] NFC	A complete external cladding solution - Whether you want to transform your home aesthetically or protect it from the elements, Pura NFC [®] delivers these unique qualities and more, along with a range of design possibilities to suit your style preferences. Attend our talk and learn more about this premium façade solution that will leave your home exterior looking stunning for decades.
	14:00	Safeguard Europe	Dealing with Dampness - This seminar gives an overview of the methods available to correctly identify the causes and types of dampness in buildings. The most common types of dampness encountered in existing buildings (rising damp, penetrating damp, and condensation) are examined, as are methods of repair and treatment.
	14:30	EcoCocon	Strawbuild - An introduction to pre-fabricated straw panels.
15:00	Scandinavian Homes	Why build a log home - What do you think of when someone mentions the words log home? By the end of this talk you'll have a very different image of log homes, and understand why log homes can be great for you and for the environment.	

BUILD IT THEATRE

FRIDAY, SATURDAY & SUNDAY*	TIME	PRESENTER	SYNOPSIS
	10:00 - 10:45	NSBRC Expert David Hilton & Friends	Heating Surgery 1 - NSBRC Expert and Course presenter David Hilton, brings together half a dozen expert suppliers in this informal surgery. Covering Underfloor Heating, Air Source and Ground Source Heat Pumps, Solar, Mechanical Ventilation & Heat Recovery and Infrared, each representative will deliver a short elevator pitch for their chosen system and then, led by David, will answer your questions.
	11:00 - 11:45	BuildStore	Funding Your Homebuilding Plans - The most successful homebuilding plans are those that have been planned well from the start and this means knowing your budget and understanding your borrowing options early on. BuildStore is the UK's leading expert in homebuilding finance with access to a range of borrowing solutions, including exclusive mortgages.
	12:00 - 12:45 (FRI & SAT ONLY)	NaCSBA	Help to Build - The Bigger Picture. How to make the most of the help that is available - and what you can do to help yourself. Learn more about how the Government is working to make it easier for you to have the home of your dreams and how to use this knowledge to give you the best possible chance of getting the house of your dreams - whatever your budget with Andrew Baddeley-Chappell, CEO of the National Custom & Self Build Association.
	13:00 - 13:45	Mark Doodes Planning	Planning Seminar - Join our planning experts as they use their many years' experience to share some key insights into the planning process, the common pitfalls encountered by self builders, and the options available to you (including sensitive landscapes or heritage settings), ending with a Q&A.
	14:00 - 14:45	NSBRC's Harvey Fremlin & Panel of Exhibitors	Question Time: Battle of the Building Systems - Timber Frame or Brick & Block? Traditional Oak or Concrete Blocks? Build on site or in a factory? Find out everything you need to know about the various self-build building systems with our panel of experts.
	15:00 - 15:45	NSBRC Expert David Hilton & Friends	Heating Surgery 2 - NSBRC Expert and Course presenter David Hilton, brings together half a dozen expert suppliers in this informal surgery. Covering Underfloor Heating, Air Source and Ground Source Heat Pumps, Solar, Mechanical Ventilation & Heat Recovery and Infrared, each representative will deliver a short elevator pitch for their chosen system and then, led by David, will answer your questions.
